Eiropas tiesību pamattermini / Grundwortschatz Europarecht **Basic vocabulary of European Union law**

Second edition 2010

Reception: Time to say goodbye...

The trilingual legal terminology list "Eiropas tiesību pamattermini" ("Grundwortschatz Europarecht"/"Basic vocabulary of European Union law") is a joint project of Thomas Schmitz, Kaspars Gailītis, Jūlija Kolomijceva, Kristīna Krasta, Ieva Vanaga and Līga Ziediņa. It comprises basic terms from the founding treaties and legal acts of the European Union and from legal dogmatics. It shall facilitate an easy but precise multilingual communication. Many experts in Latvia and abroad have used the first edition. Now we are looking forward to present and distribute the second, thoroughly revised and updated edition. It incorporates the *numerous changes and innovations brought by the Treaty of Lisbon*.

I would also like to make use of the opportunity to *thank all colleagues, partners, students and participants to our events for the fruitful cooperation* and the fascinating years I enjoyed as lecturer of the DAAD in Latvia. Since I will return to Germany, unfortunately, it is *time to say goodbye*.
